

## **Jen Currier**

j.currier224@gmail.com

j-currier.github.io/personalWebsite

### **Education**

- EvolveU Full Stack Developer Bootcamp
- SAIT Python Programming Certificate

### **Tech Stack**

- JavaScript
- Python
- PostgreSQL
- ReactJS
- SQL

### **Career Highlights**

- Experienced program manager for non-profit organizations specializing in at-risk or special needs children/teens/young adults.
- Member of provincial advisory panel for the Government of Alberta focusing on at-risk youth
- Doubled agency funding in one year through grant proposals and fundraising
- Delivered a 20-fold increase in event attendance
- Cultivated relationships with a wide variety of stakeholders including youth, social workers, educators, agencies, group homes, Provincial Ministry, and community partners
- Maintained full caseload solely from client referrals (word of mouth)
- Supervised a team of 10 staff members responsible for delivering programming

### **CAREER FOCUS**

#### **Goal**

To leverage the extensive skills I've developed in non-profit, along with my recent coding education to transition to a career in tech, with a focus on the end-user experience.

#### **Position:**

- Full Stack/Front End Developer
- Software Engineer
- Web Developer
- App Developer
- Project Manager

#### **Industry preferences:**

- Start up
- Finance
- Energy
- Web services
- Data
- Construction
- Aviation

#### **Geographic Location:**

- Prefer remote positions
- Calgary and area for non-remote positions
